CONSTRUCTION SERVICE CENTER

March 16, 2016

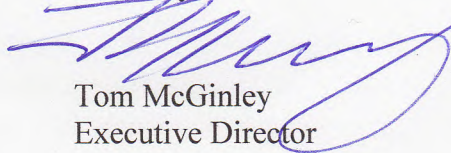

To Whom it May Concern:

It is with great pleasure that I recommend to you Mr. Henry Tooryani. I have known Henry in a professional capacity for almost three decades. Mr. Tooryani is an expert in construction and estimating and is extremely well regarded in the industry. He works for the largest and most recognized companies in the area. He is active in many professional societies. He serves without compensation on the boards of construction organizations including this one. He has managed the largest and most complex landmark construction projects and has extensive experience in teaching at the college level.

Mr. Tooryani taught classes in the program I formerly managed for 17 years at SJSU Continuing Education and has taught in the Peninsula Builders Exchange / SJCC accredited Construction Technology Program. Not only is he a popular teacher, he is the MOST POPULAR teacher we have ever had based upon written student reviews. He is an exceptional teacher who cares greatly about his students. He has taught classes in estimating topics, construction management, construction scheduling and other construction related subjects. Each time he has earned the admiration of his students and the respect of his fellow instructors.

Mr. Tooryani is one of those individuals who is successful because he is very good at what he does and is extremely well regarded by his peer group. He is a leader in our industry and has an exceptional ability to teach others. I give him my highest recommendation. If you should like to discuss Mr. Tooryani in more detail, please feel free to call me at 650-591-4486 during working hours, or on my cell phone; 408-439-0558 at other times.

Sincerely,

Tom McGinley
Executive Director
